

ESTIMATED COVID-19 TESTING TIMELINE

Thank you for choosing Connected Health for your COVID-19 screening test. You have taken an important step to preventing the spread of this virus and keeping yourself, family, community and co-workers healthy and safe.

The table below gives you a general outline of the expected timeline from specimen collection until the results are communicated to you. This is an estimated timeline; the actual timeline may vary. Please understand that once the specimen leaves our facility and is transported to the lab, turnaround time for delivery and specimen processing is out of our control. We will make every effort to communicate your results to you as quickly as possible as well as any factors that might delay this estimated timeline.

Once you are connected to our practice by our secure Spruce platform, that will be your most efficient means of communication. You may also call (724) 933-4303 during normal business hours.

We thank you for your patience and your business!
